Designing Excellence, Building Trust

TURNKEY INDUSTRIAL SOLUTIONS

FROM GREENFIELD TO LOCK & KEY

www.arkooprebuild.com

COMPANY INTRODUCTION

At Arkoo Pre-Build Pvt. Ltd., we pride ourselves on being a trusted leader in turnkey industrial projects, specializing in the design, engineering, and construction of industrial sheds that integrate Civil, PEB (Pre-Engineered Buildings), and MEP (Mechanical, Electrical, and Plumbing) services. Established with a vision to provide end-to-end industrial solutions, we have successfully delivered a diverse range of projects across various sectors, positioning ourselves as one of the most reliable names in the industry.

We understand that every industrial project has unique demands, which is why we take a customized approach to every assignment. From initial site assessment and conceptualization to design, manufacturing, and final execution, our comprehensive turnkey solutions ensure that all aspects of the project are seamlessly integrated, managed, and delivered on time.

With our expertise, we manage the entire process—from greenfield development to lock-and-key project handover—providing clients with a single point of contact, transparent communication, and high-quality standards at every stage of construction. This approach minimizes the need for multiple contractors and eliminates delays, ensuring that your project progresses smoothly and meets all your specifications.

At Arkoo Pre-Build, we don't just build structures; we build partnerships by exceeding client expectations with a commitment to innovation, sustainability, and customer satisfaction.

CORE SERVICES

- Turnkey Solutions** : Full project management from concept, design, and engineering to construction.
- PEB Manufacturing** : Expertise in custom pre-engineered buildings.
- MEP Integration** : Advanced mechanical, electrical, and plumbing services.
- Civil Works** : Extensive experience in industrial civil construction.

VISION

To be the most trusted and innovative provider of Pre-Engineered Buildings and EPC contracting services globally, creating sustainable and resilient infrastructure that fosters growth and development for businesses and communities alike.

MISSION

- To deliver tailored, high-quality Pre-Engineered Building (PEB) solutions that align with the changing needs of our clients, prioritizing safety, efficiency, and durability.
- To expand into EPC contracting and solar structure supply, offering a comprehensive suite of services that address every aspect of industrial construction.
- To drive innovation and excellence, upholding

WHY CHOOSE ARKOO PRE-BUILD PVT. LTD.?

Tailored Design Solutions : We create customized and sustainable PEB designs using advanced tools like 3D modeling and CAD, ensuring precision and functionality.

Engineering Excellence : Our focus on structural integrity and safety, backed by smart construction techniques, guarantees durable and cost-effective projects.

Efficient Project Management : We deliver projects on time & within budget, ensuring client satisfaction throughout every phase.

Sustainability Focus : Eco-friendly materials and energy-efficient designs are at the core of our construction approach.

Custom Solutions : We provide flexible, tailored services to match each client's specific needs.

Expansion into EPC and Solar : We're growing into EPC contracting and solar structures, broadening our service offerings.

Pan-India and Global Reach : Operating across India, with plans for expansion into Africa.

PRODUCTION FACILITIES

At Arkoo Pre-Build Pvt. Ltd., we have a robust production setup that allows us to handle large-scale industrial projects efficiently. Our facility boasts:

- **Primary Member Capacity**: We can produce 12,000 MT per annum of primary structural members, ensuring we meet the demands of even the most complex projects.
- **Secondary Members & Sheeting Capacity**: Our plant is equipped to produce 6,000 MT per annum for secondary members and sheeting.

TECHNOLOGICAL EDGE

At Arkoo Pre-Build Pvt. Ltd., we leverage **advanced technology** like **CAD, BIM, and 3D modeling** to ensure precision & efficiency in every project. These tools enable us to create highly accurate designs, reduce errors, & streamline collaboration between teams. Our technology-driven approach helps optimize project outcomes, ensuring that all phases—from design to execution—are handled with the utmost accuracy & speed, improving overall project delivery & quality.
